Take Control of Your Oral Health with Our VIP Program!

Frequently, general health conditions are visible during regular dental examinations, even before they affect overall health. Early detection and treatment will protect your general health and your overall quality of life, and of course, will protect your dental health.

All too often, people without dental insurance will delay essential dental care, enabling the first signs of health issues to go undetected and untreated. We know that many dental plans offer only limited coverage, preventing access to essential dental care and ongoing preventative dentistry. Often these limited benefits can contradict the advice of our experienced dental team, and even the simplest procedure may require endless red tape for approval. Our savings program eliminates these concerns, removing the restrictions that could negatively impact your dental and general health.

We have created our VIP Private Savings Program for people who want to benefit from the highest quality and advanced dental care whenever it is necessary or desirable. With our dental care plan, you and your family will never need to compromise your dental health, instead, you will gain access to all the dental care you need.

PROGRAM GUIDELINES

- ◆ There are no maximums or deductibles each calendar year because this is a savings plan, not an insurance plan.
- ◆ Membership payments are collected annually. If membership is cancelled and the total value of services received is less than the membership fee, you will receive a refund of the difference.
- ◆ The savings are based on payment in full at the time of service.
- ◆ Our savings program can not be combined with other dental or accident insurance.
- ◆ Only services provide at Frontier Family Dentistry are covered under this plan.
- ◆ If you require a referral to a dental specialist, these services are not covered by this program.
- ◆ You must maintain membership to continue receiving services covered by this plan.
